## Blood Donation (16 DRIVES)

Date of activity	16 Drives (25/8/2020 TO 14/4/2021)
Venue	At Various Locations
No of Volunteers	287
No of Beneficiaries	2124

The aim of the activity was to motivate individuals to contribute to the betterment of society by participating in blood donation for a noble cause, while also aiding blood banks in their efforts. A day before the activity, all volunteers received prior notification. Passionate volunteers actively engaged in blood donation campaigns held at various locations during which volunteers documented 2124 beneficiaries across 16 different drives. The NSS volunteers played a pivotal role by assisting the medical team in conducting an assessment of blood donors' physical and medical conditions. This encompassed tasks such as recording blood groups, utilizing blood pressure monitors to measure donors' blood pressure levels, and noting hemoglobin levels. Furthermore, volunteers lent their support to the medical staff in the collection of blood donations. This opportunity provided volunteers with a platform

to actively contribute to the community, raise awareness, and collaborate with medical professionals in the vital process of gathering blood donations for blood banks.
